SECTION SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES

Solicitation DABK09-03-R-0011, Design/Build – Rebuild Taxiway 5 at Campbell Army Airfield, Fort Campbell, KY is amended as follows:

- a. Pages 9 & 10 – PROPOSAL SUBMISSION/EVALUATION OF PROPOSAL are deleted in its entirety and replaced with attached sheets.
- b. Page 24, Commencement, Prosecution, and Completion of Work – complete the entire work for use not later than 180 calendar days is changed to read 365 calendar days.
- c. Question: How much stone is under the existing asphalt? Can the Contractor use any of the existing stone base or is it to be removed from site?

Answer: There was not any core drilling to identify what the existing conditions are. Contractor is required to do a geotech investigation to identify what is below the asphalt. The specs require removal of the base course material. It also allows that some material that is suitable may be used in other areas of the construction, such as temporary roads, etc. The contractor can create a stockpile for use later.
- d. Pavement specs add the following: Add ½” choker stone #9 or #11.
- e. All other provisions remain unchanged.

(End of Summary of Changes)

Only bonds from corporation or financial institutions will be recognized as responsive to the submission for bid bonds or performance and payment bonds.
